Insights & Analytics Team Structure

A small but mighty team spanning 3 key verticals

Team of
7

Innovation & Platform: Vertical Purpose

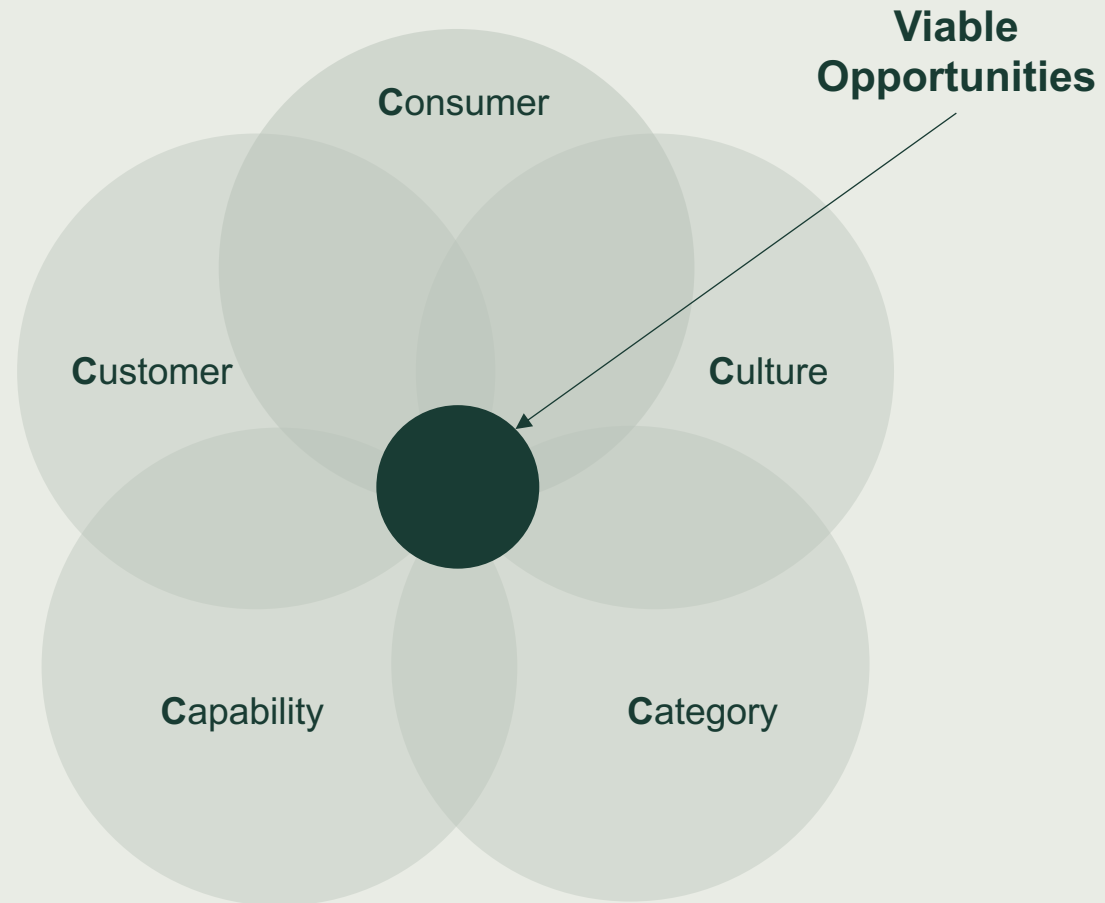

Primary Focus

Consumer understanding – the macro Cultural trends impacting their lives and identifying behaviors, needs, and desires as it pertains to our current and future portfolio – platforms and suite of product offerings.

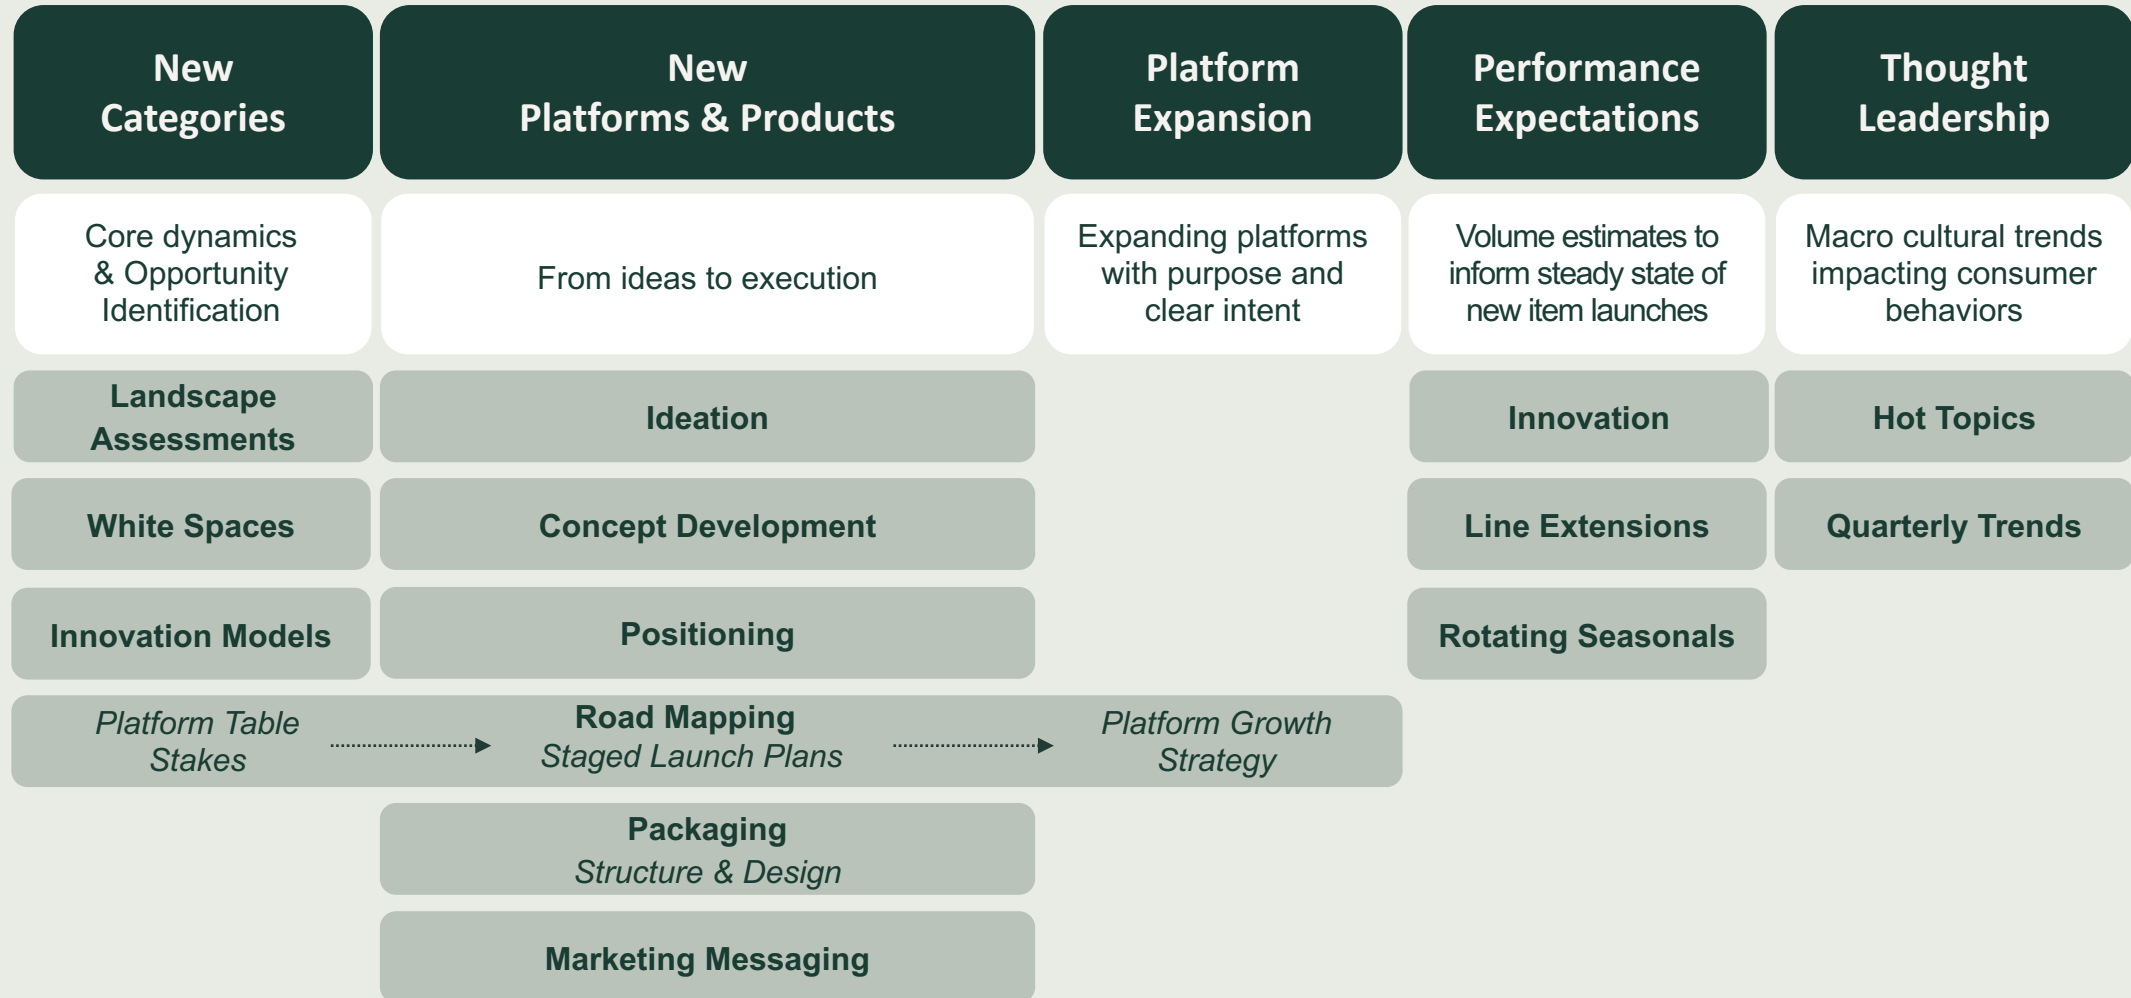

Secondary Focus

Always considering and keeping our current and potential Categories, Chobani's Capabilities, and our Customers at the forefront of our recommendations to ensure true commercial success.

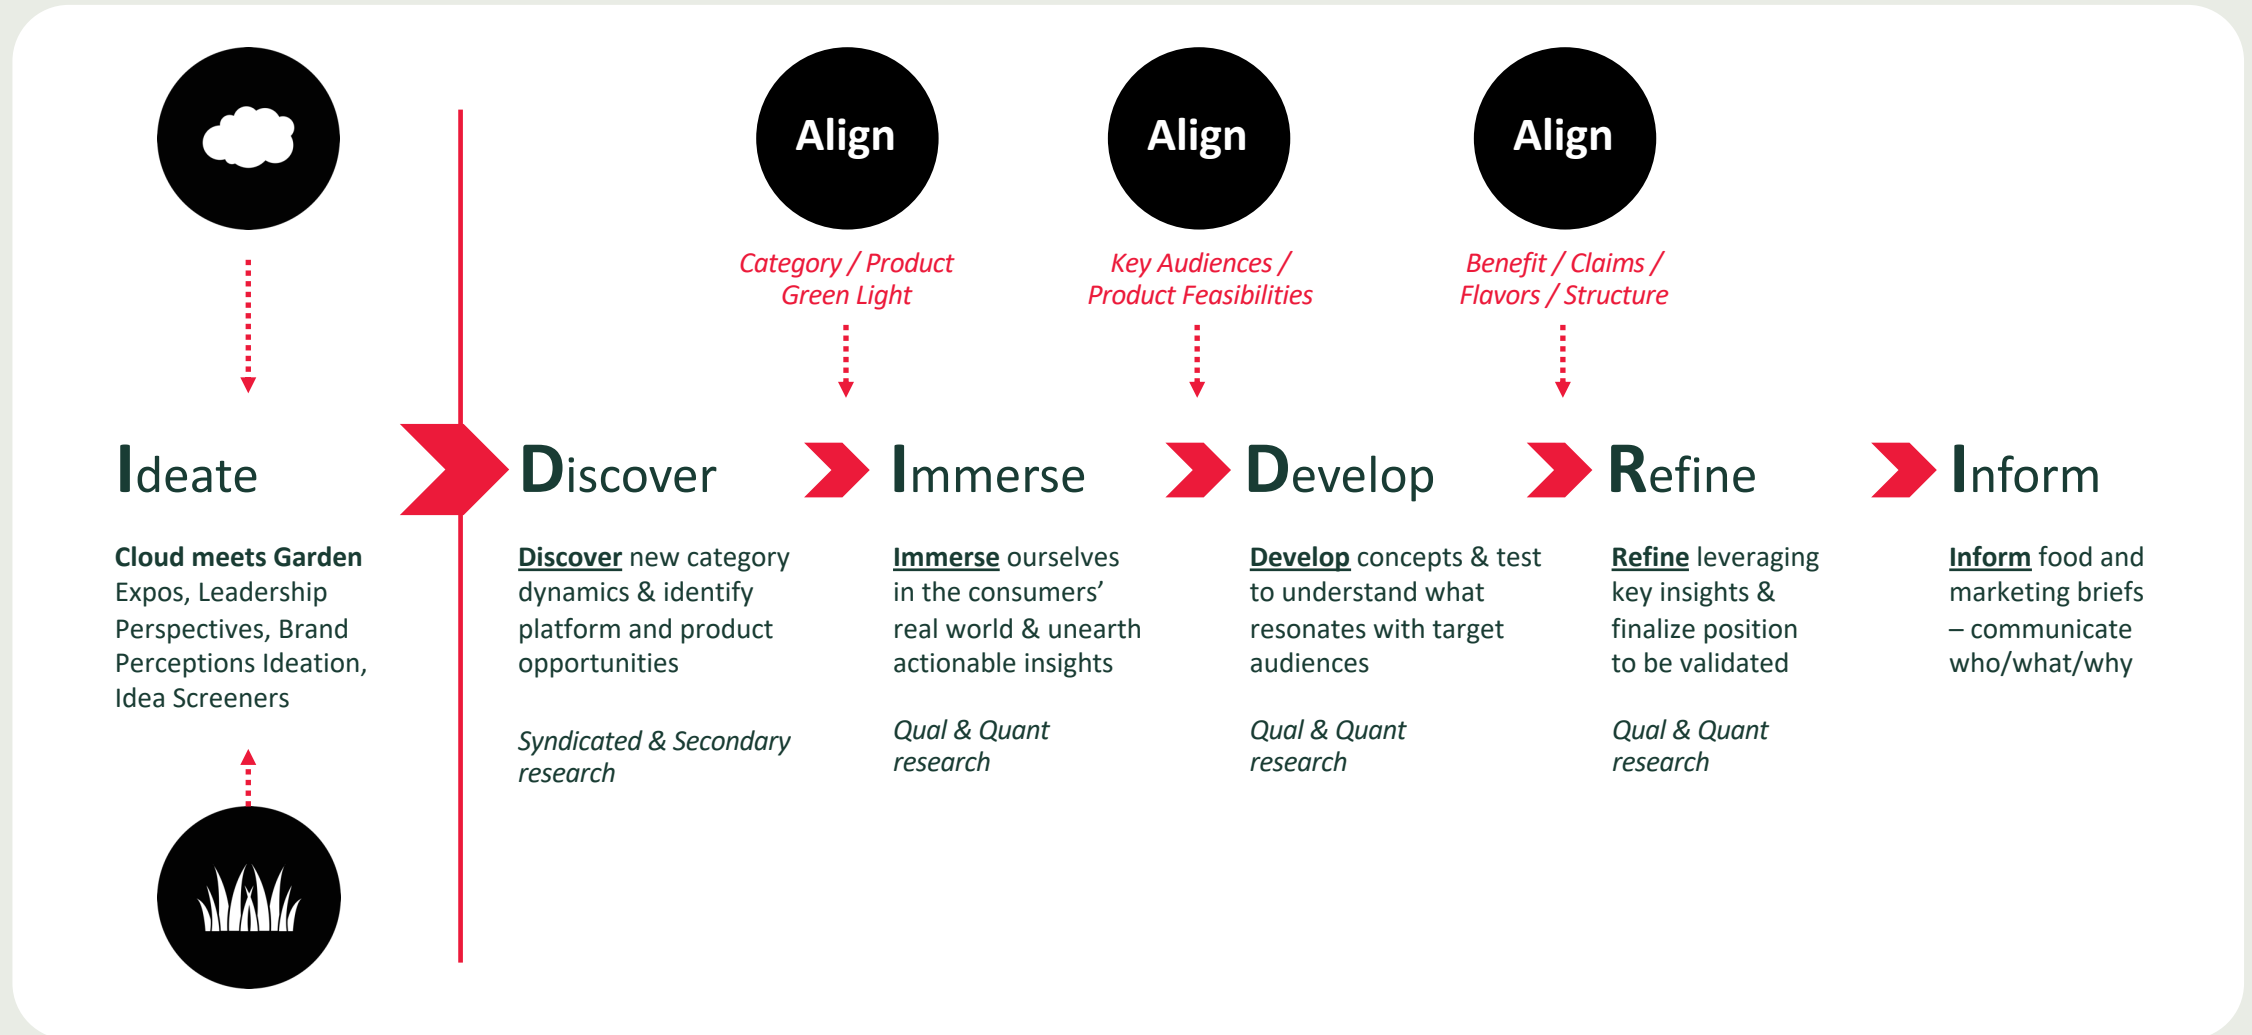

The 5 Cs of Innovation

Innovation & Platform: Responsibilities

Innovation & Platform: Process

A DIY Process with Critical Partner Support

Brand Perceptions

Partnered Execution

- Recruitment
- Digital Focus
- Group Platform

Objective:

Understand how consumers view the Chobani brand, platforms, new items. Identify opportunities & where we have a right to play.

Metho:

12 Focus Groups: 3 X 4 Region Key Regions (~50 consumers)
Chobani Yogurt / Chobani Cross-Category / Note engaged but Open

Inputs:

Master Brand Pillars & Elements / Portfolio Architecture

Stakeholders:

Leadership / Corp. Comms. / NPD / Marketing

Timing:

~12 Weeks from kick-off to report finalization

Key Learnings:

- Shift from “Yogurt Company” to “Dairy Company”
- Need for more marketing & portfolio wide campaigns
- Philanthropic areas to focus on / Stories to celebrate
- Chobani Food Equity & Categories to pursue

Behaviors & Desires

Partnered Execution

- Recruitment
- Programming
- Platform License

Objective:

Understand how consumers view the space, what consumption look like, brand perceptions, and desires for a new entrant

Metho:

Digital Community
week of daily activities & survey, 2 Groups: Category Engaged / Lapsed Users (~200 per)

Inputs:

5 Day Activity Guide (Key Business Qs) / 2 Concepts

Stakeholders:

NPD

Timing:

4 Weeks

Key Learnings:

- Validated Chobani acceptance in space by category users
- Table Stakes = great texture / Barriers = “overly processed” offerings
- Food implications / tactics to bring lapsed users back to category
- Classic flavors with a Twist (elevated) most desired

Process Showcase: Marrying Quant & Qual

Behaviors & Desires

- Partnered Execution
- Recruitment
- Programming
- Platform License

Behaviors: ENGAGED

WHEN

Pretty much acceptable any time of day except the morning.

Primary: Evening Dessert

Secondary: Afternoon Snack / Treat

HOW

Primary: As Is / Straight from the cup

Secondary: With Added Toppings

WHERE

Primary: At Home (kitchen table or couch)

Secondary: At Work (themselves) / At School (their kids)

HOW

Primary: Top Toppings

NOTE: chowchow is strictly an evening dessert - less permissible in the afternoon because it's richer.

NOTE: On-the-go was far less common.

NOTE: I usually put a chowchowable pudding in my lunch box once or twice a week.

NOTE: Similar to what we've heard in the past, consumers often turn to these types of desserts when they are trying to avoid something more decadent. Especially ice cream.

Considering The Category Again: NOT ENGAGED

WHAT COULD POTENTIALLY MAKE THEM PURCHASE IN THE FUTURE?

- Cleaner Ingredient List**
- More Flavor Variety**
- Lower Sugar**
- Homemade Taste**

Only 17 out of 219 respondents organically called out desire for a non-dairy / dairy-free option

Flavor Desires

Consumers talk about a desire for flavor variety, but that doesn't mean that they're looking for a brand to stretch too far - they want someone to elevate the classics and pull from flavors they already know & love.

ORGANICALLY MENTIONED

1. Fruit & Yogurt
2. Fruit & Cream
3. Fruit & Dessert
4. Fruit & Candy

Ranking of Provided Flavor Territories

Classic Indulgence was by far the #1 preferred flavor territory. 45% of respondents ranked it "Top 2" choice.

Concepts: 1 - REAL FOOD

OVERALL INTEREST: 73% T2B (extremely + very interested) 35% T1B (extremely interested)

51% Preferred this concept to "Incredible Taste"

LIKES

DISLIKES

Many like the simple/wholesome proposition reflecting their concerns of negative ingredient lists. There is great desire for a healthier option.

remains polarizing with a higher percentage disliking it.

Concept Optimization

nielsen

*BASES
Optimizer*

Vendor Execution

- Recruitment
- Programming
- Platform License

Objective:

Identify the optimal concept to launch

Metho:

BASES Optimizer: ID all possible ideas (5,289 combinations), consumers select preferences, algorithm identifies top 25, measurement & ranking

Inputs:

All potential concept variants: Food Bases / Inclusions / Textures / Flavor Profiles / Pack Structures / Claims

Stakeholders:

NPD / R&D

Timing:

8 Weeks

Key Learnings:

- Prioritization of 2 lead concepts with broad reach
- Strengths & Weaknesses of all concepts
- Target Market for all concepts
- Existing packaging structures not ideal for concepts

Key Learnings: Our Innovation Process

1. Not Just Researchers but PROJECT MANAGERS & STRATEGISTS
2. Be PROUD of TEAM SKILLS, but willing to LEARN from VENDORS
3. COLLABORATION, collaboration, collaboration
4. EMBRACE RESTRAINTS (business & capabilities realities)
5. Be the DRIVING FORCE (put pen to paper)
6. Data VISUALIZATION is critical
7. Design different reports for DIFFERENT AUDIENCES
