

# Fast-paced Innovative Research

ALANNA SHIPLEY

JORDAN HOPSON

BONNIE CHIURAZZI

# Overview

- Meet the Presenters
- Let's Talk Frameworks
- Research Process Efficiency
- Prioritization Framework
- Mapping Hypotheses
- Q&A

# Alanna Shipley

- Head of Audience Insights
- DoorDash
- Research pet peeves: Business partners sharing the research method they want instead of the questions they need/want answered

# Jordan Hopson

- Lead Design Strategist
- BCG X
- Research pet peeves: Ethnos  $\neq$  IDIs

# Bonnie Chiurazzi

- Director of Market Insights
- Glassdoor
- Research pet peeves: A “stat sig sample” isn’t synonymous with a representative sample.

Research frameworks and processes add structure by limiting the focus to achievable and actionable outcomes and pointing the team toward the most appropriate research methodologies.

# Research Process Efficiency

## TYPICAL RESEARCH TIMELINE

**Templates:** Briefs | RFPs | Presentations | Toplines | Stimulus | SOWs  
| Screeners

**Procurement Timing:** Vendor Retainers | Vendor days | Early onboarding

**Mix of DIY Tools:** Short timing & specific audience | Short timing & general audience

**Shared Team Research Hours:** Break projects into common parts and enable different team members to work on different parts

**Research Library/ Wiki/Slack:** Enable and encourage exploration with team members

**Choose Vendors that can be extended team members**

## SHORTENED RESEARCH TIMELINE

# Prioritization Framework

## Step 1: Catalogue

### What Do We Know?

- Value Props
- Customer Needs
- Customer Frictions
- Goals

### What Do We Assume?

- Value Props
- Customer Needs
- Customer Frictions
- Goals

### What Do We Want To Know?

- Value Props
- Customer Needs
- Customer Frictions
- Goals

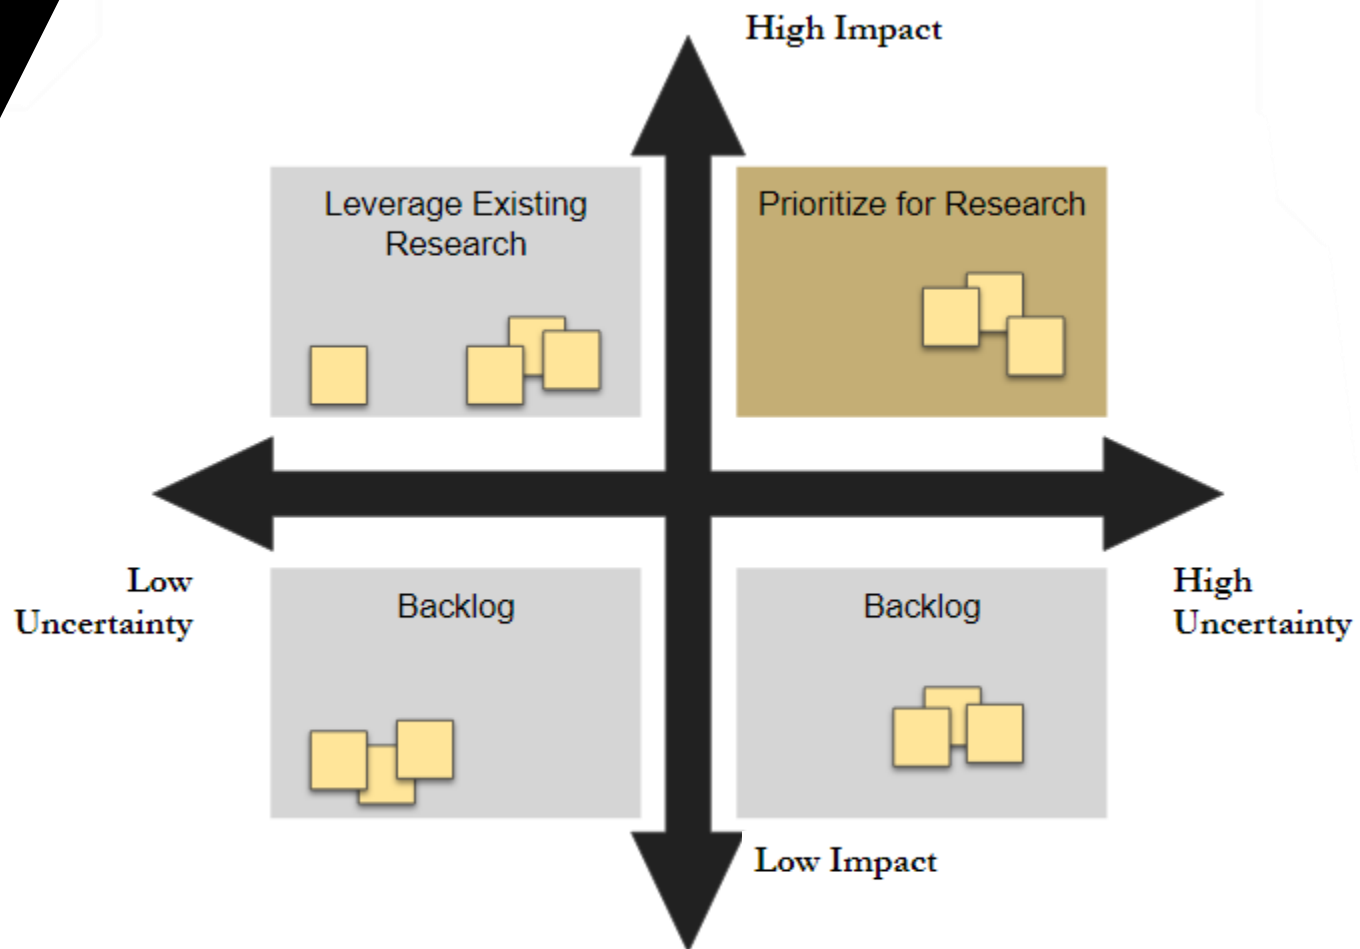

To Be Prioritized

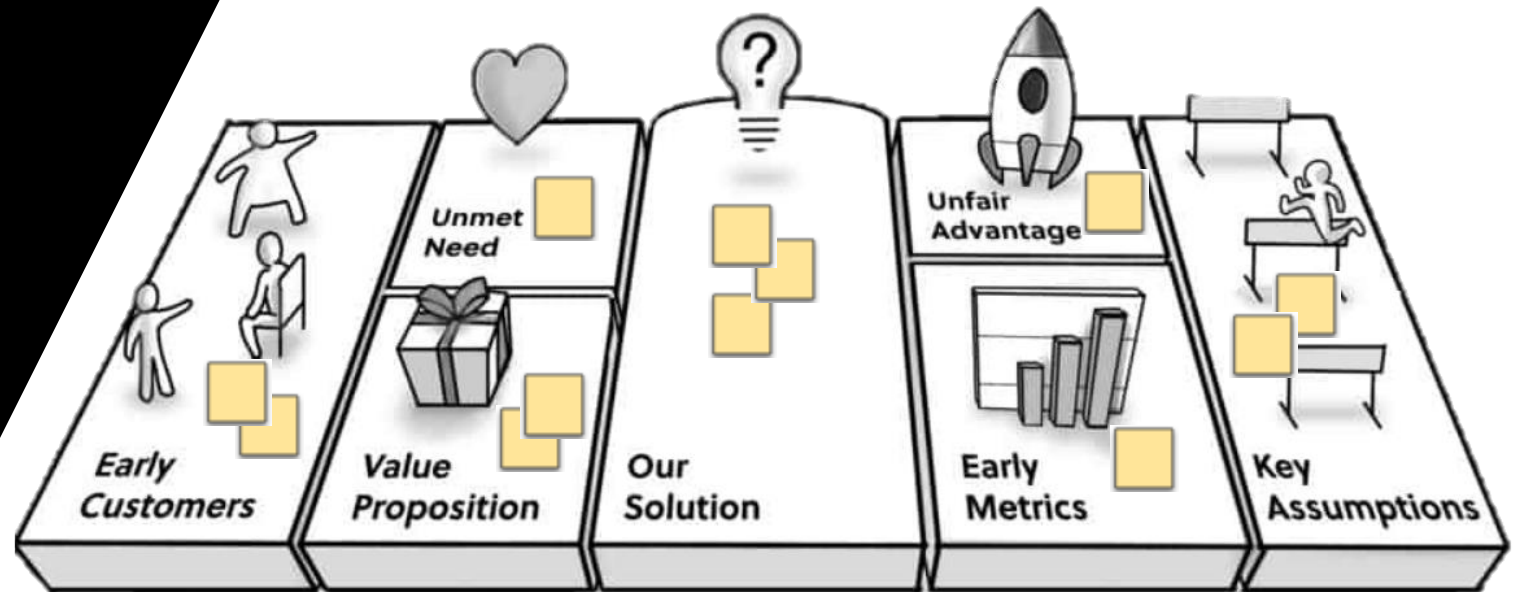

# Prioritization Framework

## Step 2: Prioritize

# Mapping Hypotheses

Q&A
