## Insights for all:

### How to make research more accessible to people with disabilities

Liz White (buzzback), Claire Kearney-Volpe and Joanne McDonough (Verizon CMI)

Customer Marketplace Insights

### As an industry, we are not meeting the needs of people with disabilities.

## 1 in 5

People in the general population has a disability (US Census, 2019)

### \$500,000,000,000+

That's \$500 Billion in disposable income (WIPO, 2021)

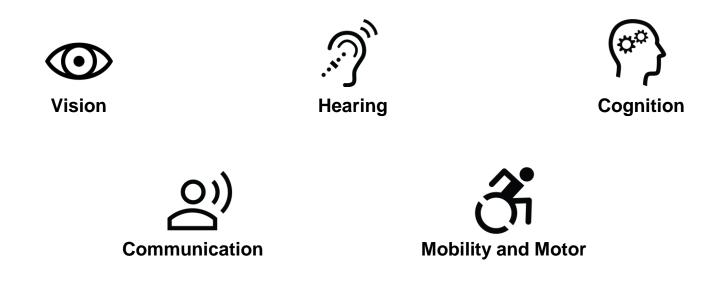

### Accessibility is the right thing to do and

- Gives an often underrepresented audience greater access to products and services
- 2 Helps differentiates brands from competitors
- 3 Helps avoid complaints from people with disabilities
- 4 Benefits use for all

#### **Modalities impacted**

#### A range of impacts & technological solutions are required.

Source: Tyler Feder/Ten Speed Press

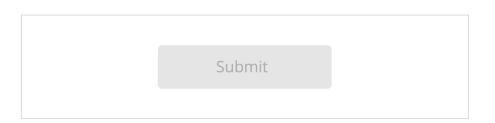

# Accessible design principles:

#### The experience should be Perceivable

Will people with disabilities be able to perceive content and controls?

- + Sufficient text size and color contrast
- + Text alternatives for non-text content
- + Captions for audio, and description for video

#### The experience should be Operable

Filter Options

Will people with disabilities be able to operate interactive components?

County (Required)	Plan Year	Persons Covered (Required)	Overall Quality Rating @		
New York \$	2020 \$	✓Select PARENT AND CHILD ONLY COUPLE	All \$		
Coverage Type	Metal Level @	INDIVIDUAL	HIOS Plan ID		
All \$	All \$	FAMILY	All \$		
E	stimated Financial Help	Dependent Age 29 O			
Estimate Financial Help <sup>9</sup>		Out Of Network Ø	C Reset All Search		

- + Interactable elements usable by keyboard
- Navigate, find content, & orient themselves
  - + Adequate timing

#### The experience should be Understandable

Will people with disabilities be able to understand what they are doing?

- + Plain language instructions, appropriate labels
  - + Content appears & operates predictably
  - + Clear affordances, error prevention/recovery

#### The experience should be Robust

### Will content preserve its accessibility when viewed on different devices?

### Today, the insights industry is only somewhat compliant with accessibility guidelines

### Why is the industry only somewhat compliant?

Currently, accessibility is a focus only when explicitly required

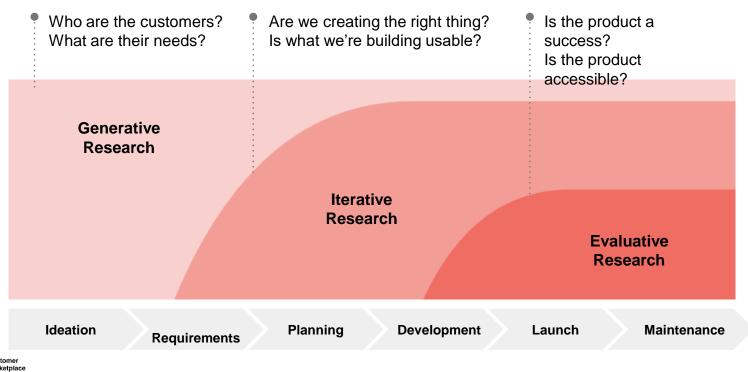

Verizon confidential and proprietary. Unauthorized disclosure, reproduction or other use prohibited.

### **Challenges** that the insights industry faces:

### Insights should be born accessible

# Empathy

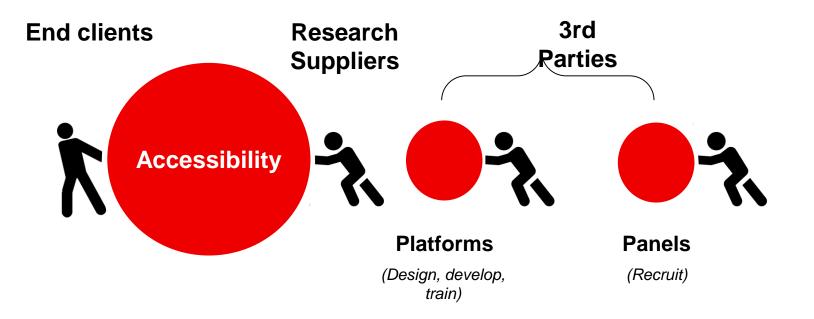

### No individual company can make an impact on their own - it has to be a collective to make traction and become the norm in the industry

### We all have a role to play: ask & offer

# verizon / Material--

4

### Our goals for the consortium:

- Ensure people with disabilities **have a voice** in research
- Collaborate as partners with a shared vision
- Aim for **continuous improvement**

### Our industry needs going forward:

1. Representation

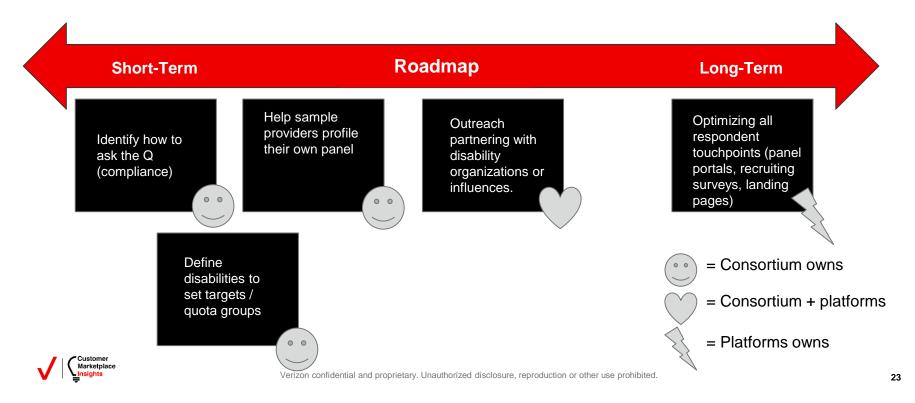

Include people with disabilities in research design & data collection

2. Inclusive design

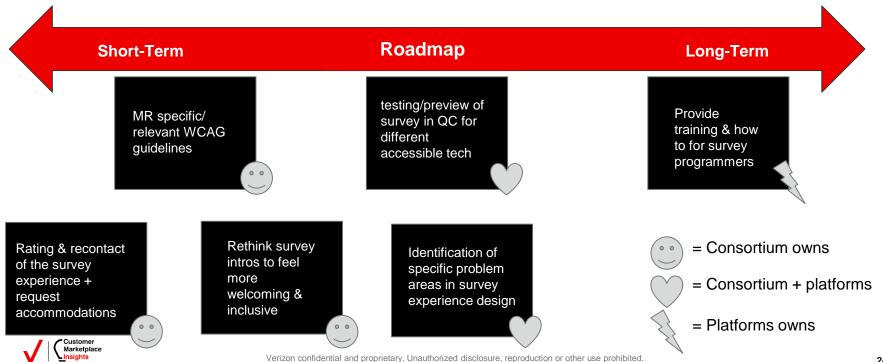

*Improve the research participant experience for people w disabilities* 

### How might we increase the prevalence of ppl with disabilities in research?

### How might we improve the research experience for consumers with disabilities?

#### **Call to action**, steps we invite you to take:

### If you are on this journey, we'd love to learn from you

### If you would like to learn more, we are happy share!
