Turn
consumer
empathy
into a **habit**

What I hope you take away

1. Today's conversation was more about **empathy** than the economy.
1. There are **real people** out there buying (and not buying) our products and services, seeing our advertising, making decisions every day. Let's meet them!
1. Insights is at the heart of **creating connections** between our teams and the communities we serve.

That's a wrap!

I would love to answer
any questions.
