The challenge: barriers to purchase.

Identify

Prioritize

Overcome

GALLO

RTi
RESEARCH

FROM DATA
TO MEANING®

A two-phase solution.

Identify Barriers

Prioritize Action

GALLO

RTi
RESEARCH

FROM DATA
TO MEANING®

Phase 1:

Efficiently uncovering barriers to trial and consideration.

Scale

Cost

Time

Phase 1:

Collaborating with AI.

STEP 1 AI SMART PROBE

Give AI freedom to uncover a broad range of barriers

STEP 2 AI REDIRECT

Gallo and RTi collaborate to make adjustments

STEP 3 AI EXPANSION

Confirm that AI is questioning as we “taught it” and make on-the-fly tweaks

GALLO

RTi
RESEARCH

FROM DATA
TO MEANING®

Phase 1:

Learnings.

**Big buckets of barriers were identified,
along with specific themes**

**Immediately-addressable barriers brought to
beverage-creation team for buy-in**

**Opportunity for two very different items, each with
unique barriers, which changed the direction for Phase 2**

GALLO

RTi
RESEARCH

FROM DATA
TO MEANING®

Phase 2:

Which barriers should we act on?

How should barriers be prioritized?

Power of each barrier to affect purchase

Which barriers can the Gallo team address?

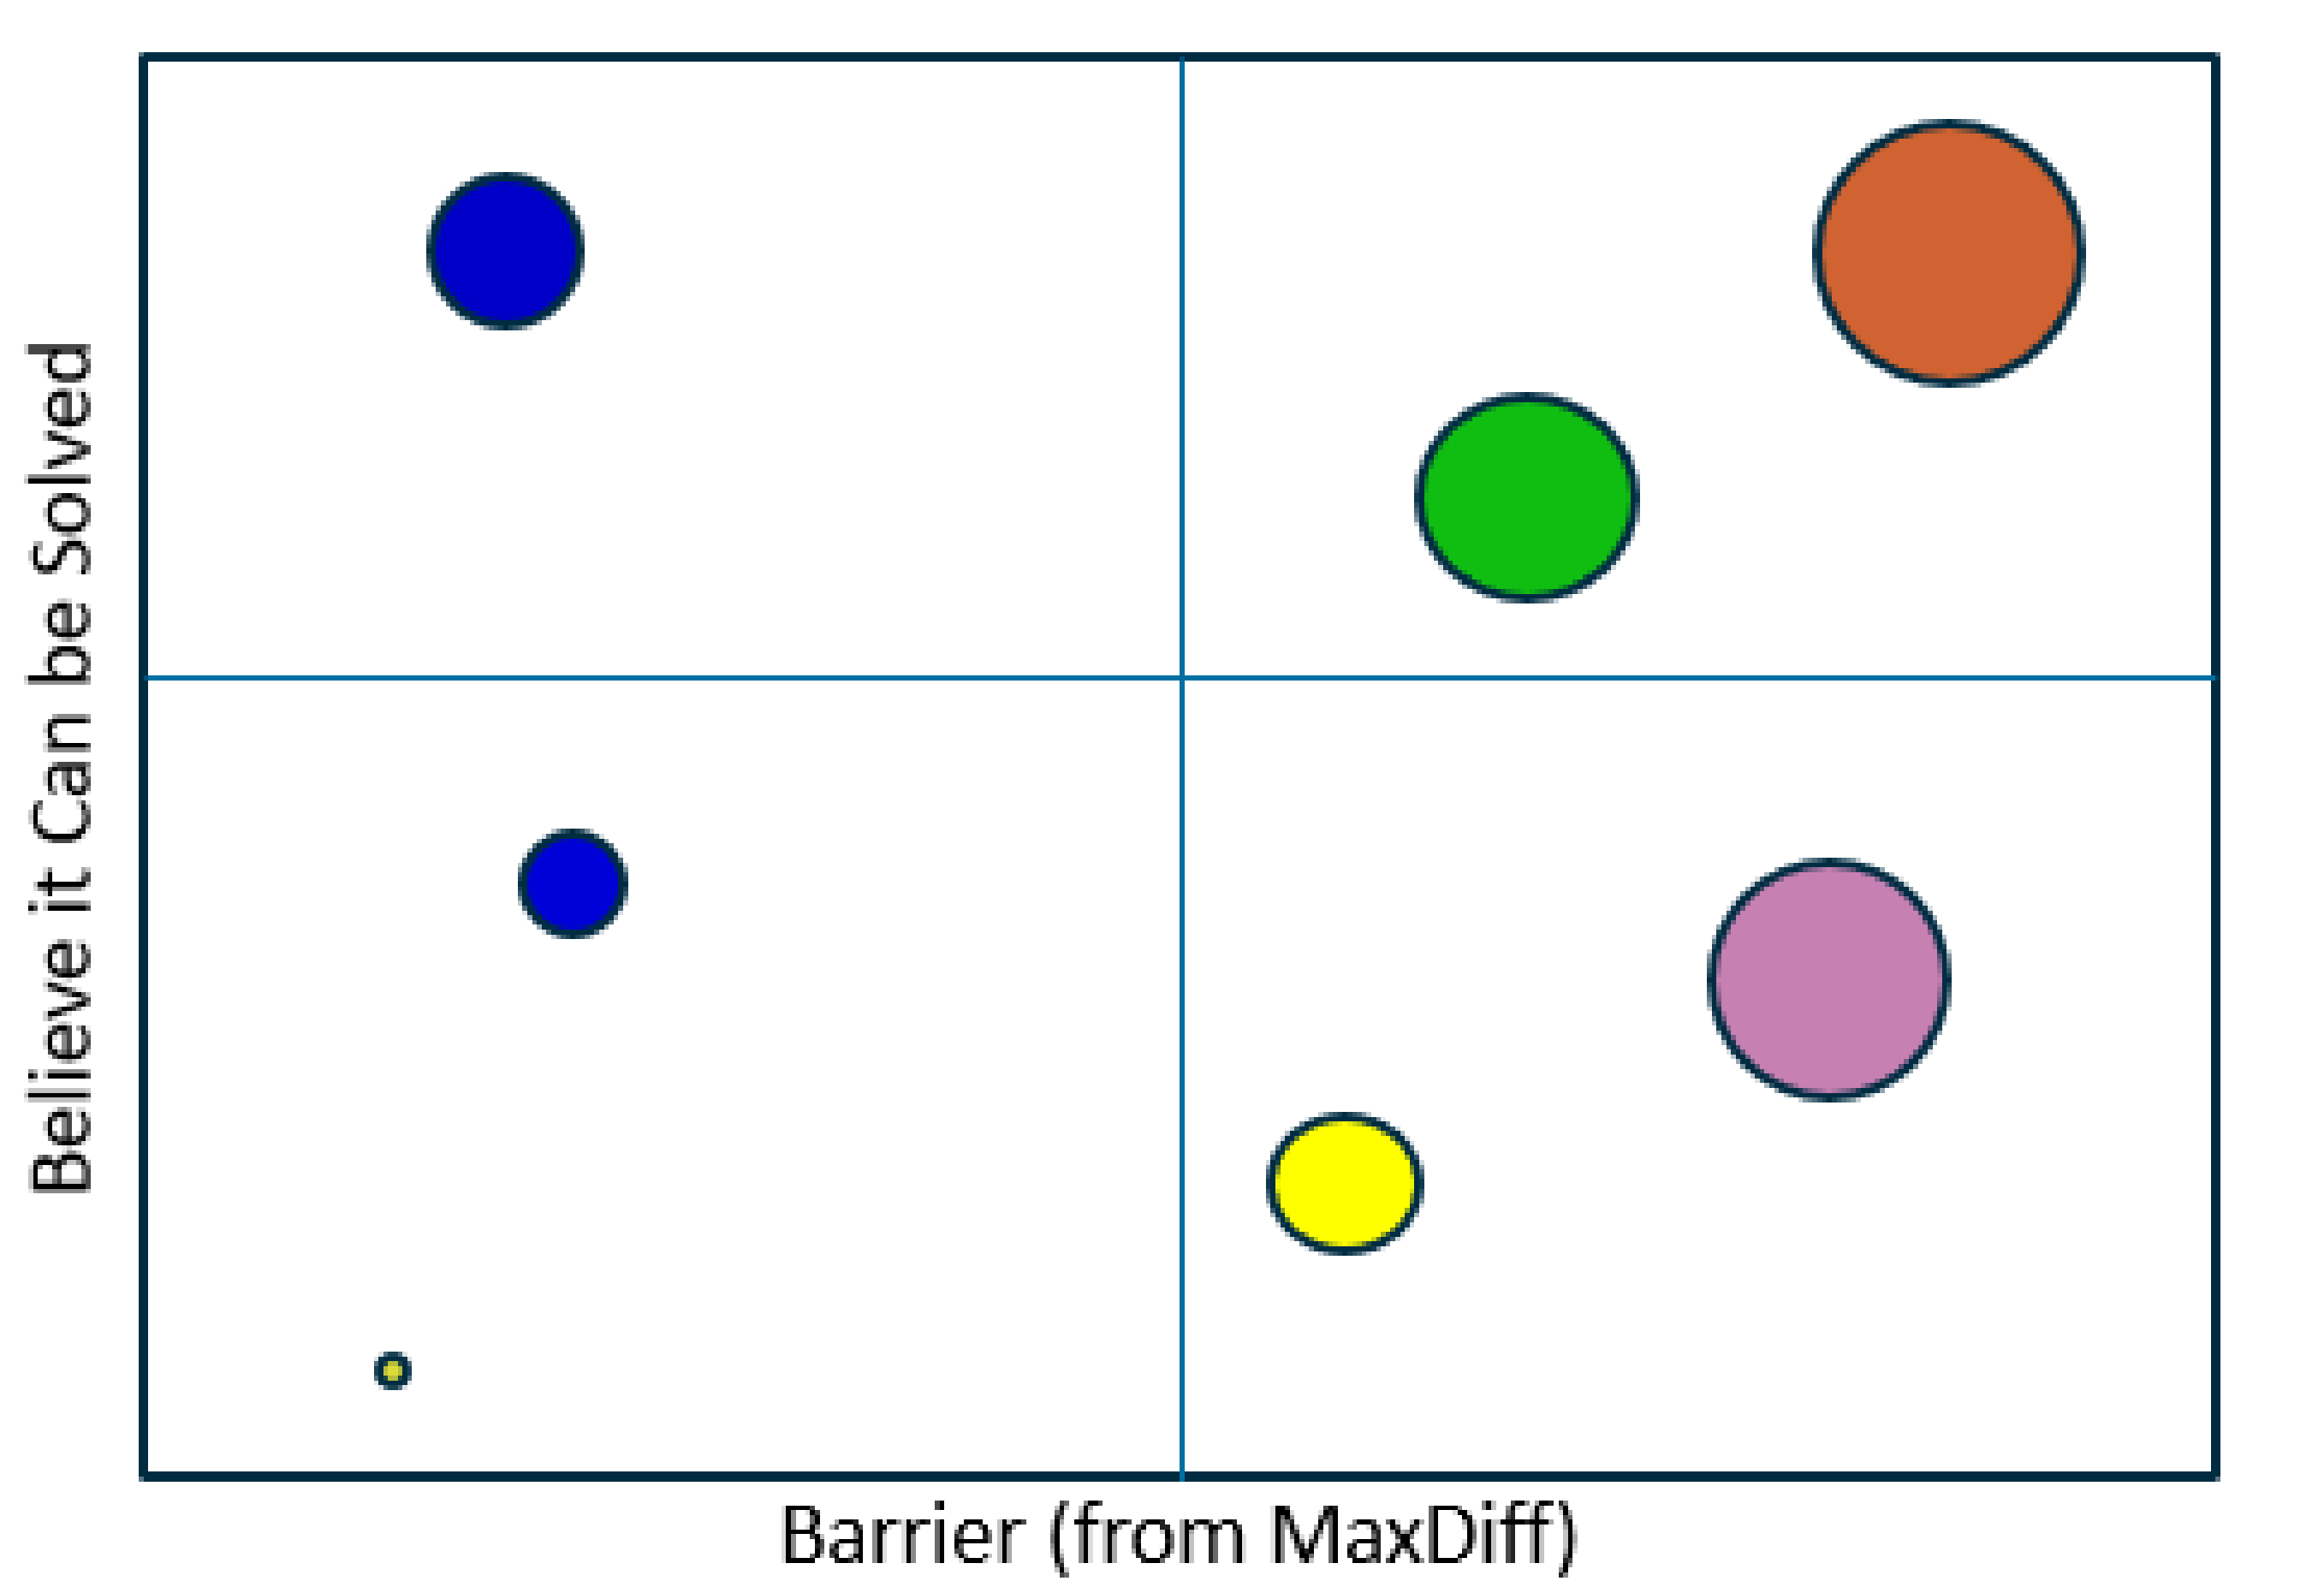

(and do consumers believe the barrier can be fixed?)
